

For every minute that passes during a Sudden Cardiac Arrest, your chances of survival drop by 10%.

But you're hundreds of miles away from a hospital, medevac will take hours and nobody nearby has any medical training.

Lifeforce[®]
MARINE AED

The **LIFEFORCE[®] Marine AED** has been designed for just this situation. It's fast and easy to use with clear verbal instructions, visual prompts and a foolproof system that guides you through every step of the process.

Any crew member can use it.
Any crew member can save a life.
